

# *Adco-RR Street Garment Analysis*

*Impartial garment analysis and training for the garment industry for over 25 years*

## **GARMENT ANALYSIS UPDATE**

April 24, 2015

Dear Valued Customer:

Effective **May 1, 2015** our garment analysis service will be renamed “ADCO – STREET GARMENT ANALYSIS”. This better represents who we are and the services we offer to our customers. We have also re-formatted the analysis form asking for more detailed information so that we can research the garment much more efficiently. The more information we have allows us to achieve a thorough, logical, and complete factual evaluation.

### **PLEASE NOTE THE FOLLOWING GARMENT ANALYSIS FEE INCREASE:**

1. Fee increase from \$10.00 to \$15.00 per garment for garments that were processed in any Adco/Streets detergent. Adco/Streets customers will still enjoy a lessor fee than non-users.
2. For non Adco/Streets users the fee remains at \$25.00 per garment.
3. **To simplify accounting we would appreciate having your credit card on file.**

If you are not an Adco-RR Street customer and would like to be able to enjoy the many services we have to offer please call us at 800-821-7556 and let us show you how it can be done.

For garment analysis, an Adco or Street customer is defined as one who has used any Adco or Street dry cleaning, wet cleaning and/or laundry **detergents** to process the garment in question. The specific Adco-Street product used on the garment in question **must be listed on the form.**

Our goal is to provide our customers with the service of Garment Care Analysis so that they can catch problems in the industry or in their process before it becomes a trend.

Garment analysis forms (attached) are available from your Adco – Street Sales Representative, customer service at 800-821-7556 or email us at [aga@adco-inc.com](mailto:aga@adco-inc.com). Our goal is to return the garment and the analysis to you as quickly as possible. Thank you in advance for your assistance. We look forward to working with you!

With sincere appreciation,

Jim Isberg  
Chief Garment Analyst

**PLEASE REMOVE ANY AND ALL OLD GARMENT ANALYSIS FORMS FROM YOUR FILES**
